

ST VINCENT'S
PRIVATE HOSPITAL
MELBOURNE

Better and
fairer care.
Always.

Registered Nurse Graduate Program

Our program

The Graduate Nursing Program at St Vincent's Private Hospital Melbourne educates and supports newly registered nurse graduates to develop confidence, professionalism and clinical expertise, whilst providing experience in a diverse and challenging range of speciality nursing environments. We are committed to developing your career and ensuring that your graduate year will be an exciting and rewarding experience.

When you join St Vincent's Private Hospital Melbourne, you will work at one or more of our four locations across Melbourne:

Fitzroy

East Melbourne

Kew

Werribee

Our Graduate Nurse Program offers a wide range of clinical settings where you will develop diverse skills and knowledge, preparing you for success in any speciality area you choose to pursue.

We encourage you to explore the opportunities offered and seek new experiences that will help you reach your full potential during your transition to Registered Nurse and make a positive impact to those you care for.

Our program will:

- offer you a wide range of rotation options so that you gain comprehensive clinical experience
- enable you to use your knowledge to achieve quality patient outcomes
- increase your confidence and strengthen your skills base
- develop your ability to work independently and as a team member
- enhance your decision making and critical thinking skills
- create a supportive environment for you to enjoy your nursing career

What does the program entail?

The St Vincent's Private Melbourne registered nurse graduate program is conducted across our four hospital locations and graduates may rotate across the different campuses.

- The **12 month program** provides you with the opportunity to tailor your individual program and explore **2 x 6 month rotations** in clinical areas you wish to gain experience in. (You do not require undergraduate experience in your nominated clinical areas of interest).
- The choice of **Part time** (8 shifts/fortnight) or **Full time** (10 shifts/fortnight) hours
- A **comprehensive orientation program** introduces you to St Vincent's Private
- During your graduate year you will be supported with **paid study days**
- Access to our Wellbeing Coordinator
- A dedicated graduate coordinator and **clinical support team**

Rotation Areas

General Ward Rotations

- Cardiac/Cardiothoracic
- Thoracic
- Haematology and Oncology
- Renal
- Colorectal and Upper Gastrointestinal Disease
- Neurosciences
- Vascular
- Orthopaedics
- Plastic and Reconstructive Surgery
- Urology
- Gynaecology
- General Surgery
- Ear Nose and Throat

Speciality Rotations

- Coronary Care and Cardiac Services
- Day Procedure Unit
- Intensive Care
- Paediatrics
- Theatre - Peri-operative & PACU

Clinical support

The Education team at St Vincent's Private Hospital provide the support you will need to achieve your goals.

Our graduates receive extensive clinical support on each rotation as we have a dedicated graduate coordinator and ward based clinical coaches, all who provide hands on bedside clinical support and education in a friendly and supportive manner.

You will be allocated a preceptor on each rotation that will also work alongside you to facilitate your learning and transition as a registered nurse.

You will receive supernumerary time and then a graduated workload to assist you in the transition to registered nurse. You will receive additional supernumerary time for speciality rotations.

We offer extensive education programs which include paid study days, access to ward based education, seminars, short courses and ongoing learning opportunities post your graduate year to support your career development.

Application information

How to apply

We welcome applications from all universities throughout Australia and New Zealand. You don't have to have completed a clinical placement with us to apply.

2025 program

IMPORTANT DATES:

Applications open
Monday 27th May 2024.

Applications close
Friday 21st June 2024 at 5pm.

Eligible applicants must have completed a Bachelor of Nursing Program or equivalent no earlier than 1st June 2024.

All applicants need to register and apply via the Allocations and Placement Service. For information regarding this service, please contact PMCV. Applications are submitted via St Vincent's Private Workday.

PMCV:

St Vincent's Private Workday:

Application Requirements

All applications must be submitted online via St Vincent's Workday in a PDF format and include:

- A cover letter
- **Succinct Curriculum Vitae** (no more than three pages) including phone and email address
- **Two referees.** One from second or third year placements (from an adult acute placement of two weeks or longer) and the second can be your employment
- **A certified** copy of your academic transcript (including legend)
- Two **certified** acute medical or surgical ward clinical assessment tools (eg. ANSAT). Clinical Tools must be two weeks or longer and either from second or third year placements undertaken in Australia or New Zealand. **Please upload the entire document, not just the summary. We require every page of the document including notes pages.**
- All students are required to include their PMCV number

Your full application must be received by 5pm on Friday, 21st June 2024.

Certification of documents

Most universities now use electronic documentation such as Pebblepad, SONIA, eEquals for clinical placement assessment and academic transcripts. Online documents are kept securely by the university so these can be submitted without further certification. The documents must be uploaded in pdf format. Please do not provide links.

Universities that have documents that are handwritten must be certified prior to scanning and uploading.

Please ensure you follow the AHPRA guidelines for document certification available via - Australian Health Practitioner Regulation Agency - Certifying Documents (ahpra.gov.au).

Interview process

The Graduate Program Coordinator will review all applications.

If you have been selected for an interview you will be contacted with further information.

The earlier your application is received, the more flexibility you will have in selecting a suitable interview time. Aim to have your application in at least a week prior to the closing date.

If you have not been selected for an interview you will receive notification via Workday.

For further information:

If you have any questions, please do not hesitate to reach out to Carolyn Price, Graduate Nurse Coordinator on (03) 9411 7763 or via email SVPHM.Education.Programs@svha.org.au

Frequently Asked Questions

Do I get to nominate which clinical areas I go to as part of the graduate program?

At the interview stage, you will outline your preferences for which intake you would like to go into and which clinical areas you would like to rotate through. Every effort will be made to ensure your rotations match your preferences, however some areas are more popular than others. We never send any graduate to an area that they have ranked in the lower half of preference lists. Graduates are encouraged to rotate into a specialty area as part of the program. All graduate rotations are to acute care areas, we do not offer rotations to aged care or rehabilitation.

How do I improve my chances of being selected for an interview?

We know that you have put a lot of time and effort into preparing your application and we will review all applications. Please pay particular attention to your spelling and grammar. It is a good idea to get someone to check your application. Make sure you send in all of the required information and aim to send in your application at least one week prior to the closing date.

Whilst you are preparing your application, we are more than happy to answer any questions you may have, via phone or email.

I have not completed a clinical placement with St Vincent's Private - will this affect my application?

We welcome applications from all universities and you do not need to have conducted your placement with St Vincent's Private.

What is the nurse patient ratio?

Our priority is to ensure that our patients receive the highest standard of care and our nurse patient ratio is determined by the acuity and complexity of the care required. As a graduate you will work in a team of nurses in a collaborative care model.

What level of allied health support is available in the clinical areas?

Our patients have access to full allied health support such as onsite physiotherapy, dieticians, diabetes education, social work, stomal therapy, occupational therapy and discharge planning. We also have onsite radiology and pathology. These services also offer great support to nursing staff and are always willing to answer any questions you have regarding their service and patient care.

What options are available at the end of my graduate program?

Upon completion of the program you may have the opportunity to work in a variety of clinical areas, including specialty areas or to further extend yourself with post graduate studies.
